

A THE

OUR UNIQUE GUARANTEE

We will replace with three, every plant blooming untrue to description

EXPERIENCE

As the pioneers in America of extensive growing and careful studying of the herbaceous peony, we present this selected list of the best sorts from every hybridizer of note.

VARIETIES

Connoisseurs will notice from our painstaking comparisons that the varieties retained are only those of the highest standard of excellence.

STOCK AND LOW PRICES

Our stock is guaranteed true to description and we will REPLACE WITH THREE any that prove not true. We can make this UNPARALLELED guarantee because of the extreme care we have always used in growing our stock.

Our responsibility, coupled with our unique guarantee and large stock, make it possible to dispense with an expensive catalogue, thus reducing prices.

TWENTY-FIVE PER CENT DISCOUNT TO THE TRADE

Any order of \$100 or more will be construed by us as being a wholesale purchase, and therefore entitled to the 25% discount TERMS: To new customers, cash with order or before shipment is made, or satisfactory reference

On orders of \$10.00 or more for Peonies only (not entitled to the trade discount) at the prices in this list, we will prepay carrying charges to your station if within 300 miles of Chicago, or on orders of \$25.00 or more, to any point in the United States.

No charge for packing.

MOVING—When dormant in the early fall, Peony and Iris roots can be shipped long distances and bloom well the following spring.

Will not supply less than six of one kind at the dozen rate or less than fifty of one kind at the hundred rate. No orders taken for less than six of one kind of Peony in divided roots.

Offered subject to being unsold on receipt of order before September 15, 1916.

We begin filling orders early in September.

PLANTING—At 20% additional we will plant any order of \$5.00 or more if within driving distance of our nursery.

Any Peony or Iris is much surer to bloom, and will be twenty per cent stronger, if moved in September, so that new rootlets may form before freezing down. This gives a great advantage to home-grown stock over imported plants, which invariably come too late.

ORDER NOW FOR EARLY SEPTEMBER DELIVERY

PETERSON NURSERY 30 N. LA SALLE STREET Chicago

UR stock is guaranteed true to description, and we will REPLACE WITH THREE any that prove not true. We can make this UNPARALLELED guarantee because of the extreme care we have always used in growing our stock. Any peony is much surer

to bloom, and will be twenty per cent stronger, if moved in September, so that new rootlets may form before freezing down. This gives a great advantage to home-grown stock over imported plants, which invariably come too late. All are listed under colors in the order of their blooming and described as by the American Peony Society.

On orders of \$10.00 or more for Peonies only (not entitled to the trade discount), at the prices in this list, we will prepay carrying charges to your station, if within three hundred miles of Chicago, or on orders of \$25.00 or more, to any point in the United States.

HE sizes given are: DIVIDED—Strong divided plants of two to four eyes; SMALL—Plants of one or two stalks of this year's growth, one year since divided; MEDIUM—Plants of two to five stalks, two years since divided; LARGE—Plants of six or more stalks,

three years since divided; EXTRA LARGE—Plants four years since divided.

Will not supply less than six of one kind at the dozen rate, or less than twenty-five of one kind at the hundred rate. No orders taken for less than six of one kind in divided roots.

Offered subject to being unsold on receipt of order before September 15, 1916. We begin filling orders early in September.

RED PEONIES

PLANTING—At 20% additional, we will plant any order of \$5.00 or more if within driving distance of our nursery.

Mme. Chereau Snow King

Florentina

NO OTHER FLOWER has so many combinations of color, especially of the delicate and unusual shades, and the name of Rainbow Flower is most fitting. They are absolutely hardy, as beautiful in form, texture and coloring as any orchid, and many are delightfully fragrant. They are not particular as to soil-and will grow where anything will, but do better in well-drained locations. The following list is selected after many years of systematic testing, similar to our Peony studies, and contains all the most desirable and distinct varieties, collected from England, France, Germany and clscwhere. ¶ We aim to have just as limited a list as will embrace all desirable varieties in shape, color, and combinations of colors, with as great a range of blooming period as possible.

This list is arranged according to blooming, beginning about May 15th.
